There is only one place to get oney these days—out of the oil. And Alberta has the soil.

Cheer up! The war did not bring hard times. They were here before the war. The war brought war prices for what the farmer has to sell. That is the one big hope of immediate relief from

In March the Bulletin pointed out that the prospect was that this year's tax bills would be higher than those of last year. His Worship the Mayor responds with an always been chosen who will superfill worship the Mayor responds with and direct relief work on dea as follows: "Now, that is a didowringht, deliberately being organizations during the work on the time. arrying on this work is a timely leading to the proper of the dida was that the High Cost of Living Commission should have any practical effect upon the least of living in Canada, now the time for it to get in its fine work, but it is announced that it has suspended its operations for the present. Prices naturally rise in were time, and so long as they do not rise more than the increase in war time, and so long as they do not rise more than the increase in war time, and so long as they do not rise more than the increase in war time, and so long as they do not rise more than the increase in war time, and so long as they do not rise more than the increase in war time, and so long as they in the proper complaint. It is of course desirable that the vacant land owned by the clips of the proposal at an adjourned by the court of me cropt for nothing, or for less money than private parties. Reasoning by analogy, the probability is that when we got through the properties of the properties of the properties of the produce had been carried off and that the premature of the produce had been carried off and that the mainter cost us a good deal more than if we went into the market and hought it. If anyone wants to plant potatoes and cabages on one of the city's vacant lots, by all means let him do it. But as for a civic garden—well, really!

EDMORTOR BULLETIN Cheer up! The weather might be as bad as it is in some other arts of the world

For pounding his wife off and on for thirty-six hours a Calgary fellow was given six months in jail and thirty lashes, At that he got off too easily.

Sir Edward Grey points or hat Britain's stand on the que that Britain's stand on the ques-tion of Belgian neutrality is in 1914 just what it was in 1870. The difference is on the other side, Bismarck admitted and re-spected Belgium's treaty rights. Hollweg marched his armies over them.

In fairness it must be said that In fairness it must be said that Dis Worship the Mayor has ac-complished one much needed and most praiseworthy reform. He has reduced the late chairman of the Health and Safety Commit-tee to a state of quiescence and a semblance of good manners. The end fully justifies the means em-sloyed.
